POLITICIANS AND POLITICS.

By 35 to 15, a strict party vote, the Senate adopted the conference report on the Porto Rican Relief bill.

A bill to prohibit National banks from making loans to their officers was favorably acted upon by the House committee on banking.

Rumors are afloat that District Attorney Hill will institute proceedings against Collector Sapp for alleged violation of civil service laws.

The fact that Gov. Mount of Indiana, has recognized Taylor as governor, cuts no ice. The old farmer never had sense enough to grease a gimlet.

State Senator John A. Bell is dangerously ill of pneumonia at his home in Morgansfield. His little daughter died Saturday of the same disease.

During the first week of operation of the new financial bill applications for the new 2 per cent bonds exceeded \$106,000,000. The net increase in bank circulation is already over \$10,000,000.

Gov. Beckham, Adj't. Gen. Castleman and the democratic attorneys in the gubernatorial contest will confer in a few days as to the policy to be pursued when the court of appeals acts on Judge Field's decision. They should decide to take possession at once, peaceably if they can, forcibly if they must.

The four democratic commissioners for the Lakeland Asylum appointed by Gov. Beckham will serve on the board regardless of the appointments made by W. S. Taylor. There are Thomas Gordon, J. H. Morris, P. W. Long and R. W. Brown, who was made a commissioner during the time of W. O. Bradley as governor.

"I did dream once," said ex Speaker Reed in a conversation in Washington, "that the republic would last forever; but now I am waking up." Upon whose brow does the prophetic eye of the American Czar see a crown? Will Marcus A. Hanna be the Nero who will lead the festivities in celebrating the destruction of the republic?—Cincinnati Enquirer.

Editor S. J. Roberts denies that he went with others to Washington to ask the president to interfere in Kentucky affairs, but simply to tell him the true facts, and to inform him that the republicans had no idea of holding the State offices by armed force after the United States court decides against them, if it so decides, nor have they any idea of removing the capital to London or elsewhere and establishing a separate State government.

NEWS OF THE VICINAGE.

Sam Philpot, charged with the murder of Ed Rogers, near Manchester, who belongs to the famous fighting faction of that name, was held without bail at his examining trial and from fear that he would be released from prison by his kinsmen, he was taken to Richmond for safekeeping.

My mother suffered with chronic diarrhea for several months. She was attended by two physicians who at last pronounced her case hopeless. She procured one 25 cent bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and five doses gave her permanent relief. I take pleasure in recommending it as the best on the market—Mrs. F. E. Watson, Aiken, Ala. Sold by Craig & Hocker druggists, Stanford, Ky.

Within about three hours three sisters at Kenham N. J., were each safely delivered of healthy twins. Mrs. J. W. Garrabrant gave birth about 8 o'clock to two boys. An hour later two more twin boys put in an appearance at the home of her sister, Mrs. Charles Freeman, and soon after a third sister, Mrs. Frederick Guerin, presented her husband with twin girls.

Capt. Herndon said that if Squire Burton's judgment against the town had been over 3 per cent of the property, the question of payment would have been submitted to the people, as the town can not incur a debt beyond that amount.

Eld. C. W. Dick, of Louisville, will preach at the Christian church Sunday, April 8. He is an able minister and he should have a large audience. Maj. A. O. Burnside is at home for a few days. Eld. George Gowen will take charge of the Christian church at Franklin, Tenn.

Mrs. J. L. Arnold has a clipping written from Lancaster to a Richmond paper 30 years ago, which represents Lancaster county court day as "county fighting day." It tells of a fight on Lexington street in which the "Paint Lick Cavalry" took part, and of U. S. soldiers interfering. The use of tangle-hall seems to have been the principal cause of the trouble.

In the circuit court Friday, Isaiah Faulkner, Sr., colored, was sentenced to four years in the penitentiary for cattle stealing from Tom and Tram Conn. Lewis Phillips got a verdict of \$25 against John Adams for damage to stock and crop. Tomlinson and Swinebroad represented the plaintiff and W. L. Williams the defendant. Although Judge Saufley has not handed down a formal opinion in reference to the validity of the town ordinance, under which warrants were issued for the unlawful sale of whisky, it is said that he has indicated to the attorneys that he considers the ordinance valid and that the question whether local option prevails here, has nothing to do with the matter and was not considered in the opinion. There is nothing now to prevent the disposition of the whisky warrants issued by Judge Brown. The jury was discharged Friday, but the judge will be here Tuesday to hear some equity cases before court finally adjourns.

MT. VERNON.

Miss Laura Hysinger, daughter of David Hysinger, died Friday of consumption.

B. F. Fuquay, the Indiana lumber man, is here looking after his extensive milling interests.

The new lime company is preparing to put up kilns at White's quarry just West of town.

The I. J. and our telephone company are being complimented over their giving quick news from Frankfort.

Louis Landram is the only man we know of who runs a strictly non-partisan paper. It's a power too in his county.

Mrs. H. C. Gentry, of this place, had an exciting adventure with a mad dog Thursday afternoon. She had started out on horseback to visit her son two miles away, followed by the family dog. Something over a mile on the road the dog fell over in a fit and after lying a few minutes got up and attempted to drag its mistress from the horse. Mrs. Gentry was terribly frightened and got off on a fence and onto the lower limb of a hardy tree. The dog climbed to top of fence several times and almost reached its intended victim, who kicked it from the fence as often. The cry for help brought a neighbor boy who was sent for a gun. In the meantime Babe McMerran, a lumber man, came upon the scene and shot the dog, relieving the lady from her perilous position.

NOT IN HIDING.

CAPT. NOAKS PRONOUNCES CHARGE ABSURD.

NORTON, VA., March 25.—My attention has been called to an article in the Louisville Commercial of the 23d stating that detectives had been in Corbin and secured sufficient evidence to justify my arrest for being implicated in some way with the assassination of Gov. Goebel. The story is absurd and I want to say to my many friends and acquaintances in Lincoln that I am at Norton, Va., and will remain until about June 1 and am not in hiding as has been published by several local papers.

Although a republican, I regret the assassination as much as any man could and hope the guilty parties will be punished.

R. NOAKS.

Golden's statements have the color of truth throughout, as the things which have occurred from the beginning of the contest, can be so easily explained by his statements, and for the additional fact that if he had been bought to swear, he would have said more. Some have said that the governor can not be arrested, that he is above the law. The truth is that no man is above the law in this country and the humblest peace officer in the State can arrest him as he can any other citizen, and if he is guilty he should be arrested if it takes every man in the Commonwealth to do it. One of our officials says that he would be arrested if he were here and a warrant had been issued.

The Illinois Manufacturers' Association has started an agitation to repeal the stamp taxes of the war revenue bill. It is alleged that the revenue is now excessive, showing a surplus of \$44,000,000 since July 1, 1899, and that therefore the stamp taxes might well be spared, as the receipts from proprietary and documentary stamps are not likely to exceed \$30,000,000. We hope it will be successful.

An insurance rate war in Georgetown resulted in the cancelling of nearly every old policy and rewriting of new ones from three to five years for almost nothing. Many policies were written for five years for about enough money to pay for the stamps the law requires to be placed on the policies. One company offered to insure the Georgetown College building for \$94,000 for five years for \$1.50.

New Orleans has secured the largest floating dry dock in the world. It is being constructed by the government and will be 525 feet long, 100 feet wide and 28 feet in draught, and be capable of lifting any ship ever built. It will cost \$1,000,000 and is to be completed in the fall.

A woman and her seven children went from Hudson, Ark., to Rochester, Minn., on one ticket. All the children were within the prescribed age of five years. There were two sets of twins and three single birth children and the oldest was but a little over four.

A NIGHT OF TERROR.

"A awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must die from consumption, but Dr. King, New Haven, Conn., said she was not in danger of death, but of recovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelously effective medicine is recommended for all Throat and Lung Diseases. Only 80c and \$1. Trial bottles free at Penny's Drug Store.

On Feb. 1, there were 73 new cotton mills in process of construction in the South with 746,810 spindles and a capital of \$15,000,000. It is estimated that during the month of February 125,000 more spindles and a capital of \$25,000,000 were added to this amount.

Wash Singleton's saw mill on Cedar Creek and Hugh Logan's in town are both doing a flourishing business.

Mrs. Kate Egbert is an expert at knitting dolls, which are both pretty and indestructible. See her samples.

Mrs. Kittle King tells us that she will not move her millinery store, but can be found at the old stand on Stanford street. See her "ad." in another column.

One buyer has shipped over \$3,000 worth of rough lumber from here since Feb. 1. The yards are still full, while Edmiston Bros' have almost a train load of locust posts.

Messrs. D. C. Payne, J. F. Holdam and Charles H. Singleton are back from Glasgow, where they went as witnesses. Mr. Payne was so well pleased with the place and found democrats so numerous that I have located there.

W. E. Perkins, who was compelled to stop working on his pretty home on account of the illness of his bright little son, Jack, will complete the improvements as soon as the weather permits.

If Hon. F. F. Bobbitt is given the opportunity of prosecuting Caleb Powers the East End will send down a big delegation to hear his speech. Our old friend, Calvin Whitt, would make a mighty good man to head the crowd.

Manager Gus Hofmann tells us that Crab Orchard Springs will be run more as a sanitarium than as a fashionable summer resort this year. Rates will be considerably reduced, but the fare will be better than ever. It is his desire to have the springs present a more homelike appearance, also.

Mr. A. H. Stigall showed us an invitation to the celebration of the 60th anniversary of American Independence, which was held at the Scruggs Orchard in Rockcastle, July 4, 1836. The managers were Charles Wall, Simeon English, LeRoy Kissie, John Cross, D. B. Harbison and G. S. Parr.

Col. James W. Guest, who, with his family, has moved into the old Guest home, says the East Enders are going to cut off this end of Lincoln and name it Goebel county. He says further that enough republican voters will be franchised to make Goebel county really democratic. We suggest that Col. Guest be made county judge during his life or good behavior.

THE INTERIOR JOURNAL

STANFORD, KY., - MAR. 27, 1900

W. P. WALTON.

THERE is no room for doubt, if in fact any existed, that Taylor conspired to have Gov. Goebel assassinated. Every circumstance pointed to his guilt before and the testimony of Wharton Golden makes it as strong as proofs of Holy Writ. When he was urged by his fellow-conspirators to call out the militia Taylor threw up his hands, said Golden, and replied, "My God, you people must do something first, I can get the militia out soon enough." "You people" did do something, Goebel was shot and in less time almost than it takes to tell it, Taylor had his soldiers on hand and guarding the executive building from which the cowardly shots were fired, in order to protect the dastardly fiends, who fired them, himself and the other foul conspirators. It was the first intention to raise a riot in the Senate chamber to kill Goebel and a sufficient number of democrats to make the body republican, but that failed, and Taylor, who had written his proclamation in advance and under the belief that the first intention would be carried out, adjourning the Legislature to London, because of an alleged insurrection, didn't have the sense or take the pains to make it comport with the facts. Had the riot been precipitated, there might have been some grounds for declaring that a state of insurrection existed, but under the circumstances it was a most ridiculous and lying assertion. The shooting down of an unsuspecting man in cold blood by an ambushed enemy guarded and protected by the so-called governor, hardly constitutes an insurrection and thus again is the promoter of assassination convicted by his own words of a guilt so deep and damnable that nothing but his death can even in a measure atone. Taylor should be immediately arrested if it takes the entire posse comitatus of the State and tried and hanged. The time for parleying with assassins has lasted too long. Let no guilty man escape and if none does Taylor is sure to feel the halter draw.

A DISPATCH says that McKinley actually shed tears when the Kentucky delegation, that went to Washington told him about the political conditions in Kentucky and between blubbers said that he considered Taylor the most persecuted man in the United States. After perusing Golden's testimony the president will change his mind. That Taylor is guilty of the assassination of Gov. Goebel as accessory before and after the fact, no one not blindly partisan has ever doubted since the black deed was consummated. His every act gave him away and that coupled with Golden's corroboration of his guilty knowledge of every movement to remove Gov. Goebel makes the chain of evidence so strong that justice will not be satisfied till the miserable usurper shall dangle at a rope's end. Even that ignominious death will be too good for him. In fact hamstrung and quartered alive would be too humane an atonement for the heinous and diabolical crime of which he is guilty beyond every reasonable doubt.

BRER HANSFORD says that delinquent list of 1,400 or so returned by the sheriff of Pulaski, shows the names of many women and dead persons, besides a number of democrats. This is worse and worse and proves that republicans there are either too ignorant for office or pad their lists shamefully in order to beat the State out of the assessment fee. Dead men and women assessed for poll tax! Editor Hansford should not expose his brother republicans in such a manner.

THE surplus for February was \$7,804,265 and for the eight months, \$37,674,785 and yet the republican Congress is taking no steps to reduce onerous taxation or to repeal the odious stamp tax. Unless the thieves are scourged from the temples, this generation will never see the end of Spanish war taxes. A democratic president and a democratic Congress elected this fall would legislate in the interest of the people and not to pile up money in the treasury to be squandered.

THE executive committee of the Press Association will meet in Louisville today to arrange an outing for the annual gathering. It should be careful to omit any travel on the L. & N. unless it wishes to pay for it. Democratic editors are barred from the privilege now of riding "free." Republicans and renegades only are in favor with the press issuing department.

THE Elizabethtown News is getting a good deal of advertising from the Dispatch and other republican sheets for suggesting a primary election to nominate a governor. Such a thing is entirely impractical and will doubtless receive no consideration at the hands of those whose duty it will be to name the manner of making the nomination.

THE subsidized organs of assassination are making heroic efforts to counteract the effect of Golden's testimony, but corroborated as he is by the circumstances, one who would not credit his story would not believe though one arose from the dead.

THE talk about the Fayette county grand jury raising a row because, as alleged, bad materials have been used in the buildings of the Houses of Reform and the contractors have not been proceeded against for failure to complete the buildings within the specified time, is all poppy-cock. The trustees, of which the writer is one, are not alarmed at such charges. They know that the contractors have labored under many disadvantages and are disposed to be lenient with them, but they are amply secured both by a forfeit of \$25 a day and a big bond with a guarantee company as surety for the faithful and prompt performance of contracts. As to the material, we have the word of the architect employed to see to it, and also under bond, that every thing is as specified and of the best quality and in a letter to us he says that he can think of no grounds for the statement that defective material has been used. Of course the trustees, who get no pay whatever, could not sit on the walls and examine every brick, stone or timber placed in them, but they have confidence in the gentlemen engaged to see that every thing is first-class and they are confident that it is. No work has been contracted for either, beyond our assets, and if Lexington will pay the \$5,000 she promised as a bonus for the location of the institution, we will have a small surplus after every thing is paid for. It is for additional buildings that an appropriation was to have been asked from the Legislature.

JUDGE FIELD overruled all demurers and issued a final order that Taylor is a usurper with no right or title to the office of governor and that the executive office, books, papers, archives and journals shall be immediately surrendered by said Taylor to J. C. W. Beckham, the duly elected and legally qualified Lieutenant Governor of the Commonwealth, and as such entitled to the full possession of the office of governor for the term which began Dec. 13, 1899. Judge Field also holds that John Marshall has usurped the office of Lieutenant Governor, and that he is now deprived thereof, and that L. H. Carter is entitled to the full possession of said office of Lieutenant Governor. The court of appeals will likely decide likewise and then the rads will be up against their boasted writ of error and appeal to the supreme court.

THE whole State stands aghast as the story of the diabolical plot of assassination as unfolded by Wharton Golden, himself in the plot, and told in evidence against Caleb Powers, his playmate and life-long friend, socially and politically. The fatal shot was fired by Powers' office, to which he had given a man the key, on starting to Louisville to avert suspicion from himself, who had helped arrange the damnable plot. This in connection with his flight with \$1,300 and a bogus pardon on his person from the scene of the murder in the disguise of a militiaman, is ample sufficient to convict him and hang him too. Many a man has suffered death on less convincing evidence.

POSTMASTER BAKER, of Louisville, would do well to put a bridle on his tongue or he may get a halter on his neck. He admits that he helped to get intimidators to Frankfort, that he said Goebel would be killed if he persisted in pushing his contest, that he would never live to be governor and other things almost as mean. Dr. Baker is a big man, but bigger men have caught it in the neck for less offensive talk.

THE republicans raised \$18,000,000 in 1896, mostly from the trusts. This year, owing to the alarm felt by the republican leaders over the uprising against the Porto Rico tariff bill and other features of the administration's policy, \$30,000,000 will be demanded. But even that won't save them. Everything seems to be working together for good for the democrats for they are they who love the Lord.

TALLOW DICK KNOTT said in the same issue of his diabolical Post, that told of his testimony: "Wharton Golden should not be held responsible for 'confessions' attributed to him by yellow journals and criminal lawyers. Let him speak for himself and be judged by his own words and acts. Even a witness is entitled to that consideration." He has spoken. Now what do you say?

COL. BILLY AND CORPORAL DESHA BRECKINRIDGE say in their republican sheet that our attempt at humor in connection with the "Liberty League of Kentucky," an organization of sore heads and sore posteriors is really sad. Doubtless it is to them. Any reference to renegades and malcontents is both sad and humiliating to such individuals.

TO take, tabulate and prepare the census report will take a force of 3,000 men in Washington and 50,000 scattered over the country. An especial effort will be made to get all the facts pertaining to the farming class and farmers as well as all others interested are requested to aid in the work of securing the best information obtainable.

"YOU fellows act first, (that is kill Goebel) and I will have the soldiers out quick enough." These are the words of the creature who usurps the office of governor and disgraces the name of man, one W. S. Taylor.

HON C. M. CLAY, who was president of the constitutional convention, denies that the governor has the right to adjourn the Legislature to another point after the body is assembled and says that the makers of the instrument had no intention of conferring such authority on him.

POWERS WANTED TO KILL BRECK HILL.

YOUTSEY, OF NEWPORT, NAMED AS THE MAN POWERS GAVE KEY.

LOUISVILLE, March 27, 8:58 A. M.—Golden's testimony not shaken in the least by cross-examination. After adjournment of court he answered question, which was stopped by excitement, saying that Caleb Powers made threats against the life of Breck Hill, secretary of State.

The man to whom the key of Power's office was given is believed to be H. E. Youtsey, of Newport, stenographer in former Auditor Sweeney's office.

Tom Reed's law firm engineering big new steel trust with \$200,000,000 capital.

The examining trial of Caleb Powers, who is charged with being an accessory to the assassination of William Goebel, was begun at Frankfort Friday. Several witnesses were examined, their testimony going to show that the fatal shot was fired from a window of the secretary of State's office.

FRANKFORT, March 24.—The second day of Caleb Powers' trial was devoted to the examination of Wharton Golden, who made good every claim made by the prosecution and told a most sensational story. So strong was his testimony that hardly a reasonable doubt is left of the guilt of the defendant and of John Powers, Culton, W. S. Taylor, "Tallow Dick" Combs and others. In brief, Golden said that the Powers brothers, who had always been his close friends, were in charge of the work of assembling and bringing to Frankfort the mountain mob of 1,200 desperate men, that Powers' instructions were to get "regular mountain feudists" and that the purpose was to rush into the Senate chamber or the Legislative hall during a joint session and kill Goebel and enough democrats to leave a republican majority. Receipts for money aggregating about \$160 were produced, signed by county leaders, who got the money from Golden to help pay the expenses of the invading army. After the mountaineers got to Frankfort, it was decided by Caleb Powers, Finley, Taylor and himself to send back to the mountains all the men except 10 or 15 picked men from each county. These were to remain and accomplish the required work. In his presence, with Caleb Powers and others also present, Taylor, on being importuned by E. J. Howard to call out the militia, threw up his hands and said: "My God, you people must do something first. I can get the militia out quick enough." The plan was abandoned and Tallow Dick and another Negro named Hockersmith were selected to assassinate Goebel from ambush. He heard Tallow Dick say he had been watching Goebel for a week and added: "G-d d-n him I know him as far as I can see him and am going to fire this pistol at him." The Powers brothers, after giving a black moustache man the key to Caleb's office, went to Louisville on the morning of the assassination, but before doing so, John Powers said "Goebel is going to be killed this morning" and Caleb Powers said "G-d d-n 'em we've got them now." At this point, Golden, who had been taken ill during the morning session, necessitating a recess, again showed unmistakable signs of illness, and the court adjourned till Monday.

FRANKFORT, March 26.—Wharton Golden was too sick to appear in court this morning, but went on the stand in the afternoon and was cross-examined for the defense by ex-Gov. Brown. The witness did not vary from his story of Saturday. The defense sought to show that the witness had been bribed by the State, but this he emphatically denied and said he did it to save himself. In a heated colloquy between George Denny and Attorney Campbell the lie was passed between them and almost instantly there was a big row in which the crowd showed a disposition to take part. Many people went out of the windows. It was some time before order could be restored.

About Conspirators and Assassins.

A republican at Bowling Green says that unless they arrest Taylor before Friday he won't be arrested, but gave no reason for his mysterious remark.

Golden strongly implicated Gardiner Wallace, a brother of the postmaster at Richmond, in the Goebel assassination plot, but he claims that he can prove an alibi.

Officials of the administration reiterate their previous statements that President McKinley on no account will interfere in the Kentucky affair, unless present conditions radically change.

Gen. D. R. Collier denies responsibility for the laying of mines around the State arsenal at Frankfort. He says the work was done by some irresponsible members of the militia, and that he has reprimanded them.

Taylor is spending most of his time in Louisville lately and yesterday's Enquirer said that his furniture from the executive mansion has all been packed up and loaded on a car ready for shipment. Just what this portends can not be learned, but the politicians say it means some sudden change of pose by Taylor.

John L. Powers, wanted for alleged complicity in the assassination, is said to be at Barbourville, his home. It is said at Barbourville that while "Tallow Dick" Combs may have some knowledge of the conspiracy to kill Goebel, the real assassin is a white man, who lives further back in the mountains.

BRIEF NEWS NOTATION.

There are 20 members, besides the directors of the Stanford Water, Light & Ice Co., who are honorary members. A constitution and by-laws were adopted and steps taken to make big improvements at the water works reservoir, which is well stocked with fine fish, and upon which the club has a lease of five years.

THE Cincinnati Enquirer has the following: Mr. Edwin C. Walton, associate editor of the Stanford (Ky.) Semi-Weekly INTERIOR JOURNAL, an industrial paper in the State, founded and edited by Col. W. P. Walton, was at the Palace. "The assassination of Senator Goebel," said Mr. Walton, "has cemented the democratic party in our county (Lincoln) solidly. We have been pretty badly split up for several years, and sometimes lost the county, but that black deed at Frankfort has brought all the democrats together again."

BLOOD HOUNDS DID IT.—Mr. W. A. Coffey, of McKinney, tells us that on the night of the 20th his buggy house was entered and a set of buggy harness and a nice lap robe stolen therefrom.

The next morning he sent for Norman True to bring his young bloodhounds, which he did. They traced the party to a house where he had been visiting and he proved to be Willie Norris.

His father is now in jail at Danville for concealing stolen property. The harness and robe are in charge of the jailer. The parties live near Parksville, but the young man has not been captured. Mr. True's bloodhounds worked finely.

STOCK PENS.—Albert B. Florence and Charles L. Dawes are putting up stock pens on the "Cut-off" pike just back of the residence occupied by T. D. Rane and will have them ready by April court day. The gentlemen are both young and energetic and should do well with their enterprise.

LOST BOY.—William Tallent, aged 11 years, son of Mrs. Maggie Tallent, of Kings Mountain, is missing. He left Danville two weeks ago to return to his home and has not since been heard of. The boy is rather small, has blue eyes and light hair.—Advocate.

"I SEE some of the rads are quitting you because you go after the assassins of Gov. Goebel and 'talk out in meeting' generally," said Mr. W. H. Furr to the I. J. representative at Lancaster yesterday. "I want your paper because of the stand you have taken and I will get you some subscribers in my section," he added, as he handed us a shining silver dollar.

"THERE are a half dozen men here who never heard of the INTERIOR JOURNAL until I came to Cincinnati, that come in on Saturday and Wednesday mornings and read the editorials in your paper," said Mr. A. E. Albright to our business manager the other day.

They call the I. J. 'hot stuff' and I agree with them that it has been pretty warm since the lawlessness begun at Frankfort," he added.

SIX AT THREE.—Mr. J. W. Hoskins, of Powers, Casey county, writes: "I have a cow which as a two-year-old, gave birth to twin calves on the 27th of January, 1899. On the 24th of March, 1900, she became the mother of four well developed heifer calves, three of which are now living and doing well.

Thus at the age of a little over three years, she is the mother of six calves, which, so far as I know, breaks the record. Who can beat it?"

SINCE our last issue Messrs. A. C. Robinson, A. J. Thompson and another sterling democrat have handed in \$1 each to the fund to defray the expenses of Messrs. R. L. Hubble, J. M. Alverston and S. J. Embry. By the way, not more than half enough money has been promised to pay lawyers' fees, &c., and those democrats who feel like donating are cordially invited to do so. Those who have promised will oblige the treasurer by paying their donations.

JONES.—A dispatch says that Ed H. Jones, familiarly known by his associates at Stanford as "Lady," was found unconscious in an alley at Chicago and died shortly afterwards. His brother, J. C. Jones, and O. V. Riley left as soon as they could for that city and will arrive with the body today, immediately after which it will be interred in Buffalo cemetery. Mr. Jones had been in bad health for some time, but his death was unexpected.

A NARROW ESCAPE.—A dispatch from Gallatin, Tenn., says: Mrs. M. A. Lackey, the aged mother of Mr. S. E. Lackey, was sitting in her room before an open grate, when her dress became ignited, the flames soon enveloping her. Her cries for assistance soon brought Mrs. S. E. Lackey, who seized a rug near by and threw it around Mrs. Lackey, and in a short time extinguished the flames. But for her coolness and presence of mind the old lady would have been burned to death.
